## **DETAILED ACTION**

### **Allowable Subject Matter**

1 The application of Ganz et al., for "Environmental data recorder for micro-well plate" filed on January 30, 2004 has been examined.

Claims 1-33 are pending.

2 The following is an examiner's statement of reasons for allowance: The prior arts of record disclose, teach or suggest a system and method environmental data recorder for micro-well plate with the limitations that "an environmental data recorder for recording environmental factors acting on a micro-well plate, said environmental data recorder comprising: A) at least one sensor for sensing environmental factors, B) a microcontroller programmed to receive and process inputs from said at least one sensor, and C) a recorder housing unit for housing said at least one sensor and said microcontroller."

3 However, the prior art of record fails to disclose, teach or suggest limitations that " the system and method for the micro-well plate being a plurality of micro-well plates, defining micro-well plate exterior dimensions, the recorder housing unit comprises exterior dimensions approximately equal to said micro-well plate exterior dimensions,

permitting said environmental data recorder to be handled by a robotic device as if it were a micro-well plate and a method for handling the micro-well plate and the environmental data recorder with a robotic device.”
